

COMBINED FLUID PRODUCTS COMPANY

Vacuum Pumps • Compressors • Blowers • Air Knives • Filters • Lubricants

MAJOR PRODUCT LINES

THOMAS Compressors and Vacuum Pumps

Oil-free air compressors and vacuum pumps. Diaphragm, linear, piston, rotary vane, vibrating armature, and WOB-L® piston designs. Capacities from .04 lpm to 21 cfm. Pressure to 175 psig; vacuum to 29.4" Hg. Miniature to 2 HP. Special OEM units available.

DEKKER Vacuum Pumps and Compressors

Liquid ring vacuum pumps and air compressors. Once through, partial recirculation, and total recirculation designs. Capacities from 1.5 to 18,000 cfm. Vacuum to 29" Hg; pressure to 29 psig. Oil-sealed and water sealed packages. Simplex or multiplex central vacuum pumping systems and hybrid systems for higher vacuum available. Air cooled, rotary vane vacuum pumps. Capacities to 180 cfm. Vacuum to 29.9" Hg. One-fifth to 10 HP.

BECKER Vacuum Pumps and Compressors

Oil-free, rotary vane vacuum pumps, low pressure compressors, and combination vacuum/compressed air pumps for the graphic arts industry. Capacities to 90 cfm. Vacuum to 25.5" Hg; pressure to 22 psig.

ATLAS COPCO Compressors and System Components

Oil-free or oil-lubricated compressors. Piston, rotary screw, and scroll designs. Capacities to 559 cfm. Pressure to 290 psig. Two to 125 HP. Large selection of aftercoolers, air receivers, dryers, filters, and oil/water separators.

REPUBLIC
Blower Systems™

AIR VECTOR & REPUBLIC Blowers and Air Knife Drying Systems

Centrifugal blowers. Capacities to 12,000 cfm. Pressure to 4.5 psig; vacuum to 8" Hg. Regenerative blowers. Capacities to 776 cfm. Pressure to 11.1 psig / 307 in. W.C.; vacuum to 17.3" Hg. TEFC, EXP, and belt drive blowers available; one half to 50 HP. Air knife systems. Air velocities up to 40,000 fpm (454 mph) to strip away water, oil, viscous solutions, and bulk materials. High efficiency systems from two to 200 HP per station.

ACCOLADE Premium Industrial Lubricants & Fluids

Premium Lubricants for Vacuum Pumps, Compressors, & Blowers. Food Grade Oils & Greases, Hydraulic & Refrigeration Fluids, and Industrial Chemicals. High quality synthetic & synthetic blend lubricants provide cost savings and optimal performance.

HYDRAPURE Filters for Hydraulic and Oil Lubrication Systems

High performance filter elements for hydraulic and oil lubrication systems. High quality, low cost replacement filter elements for Pall, Hycon, Hydac, Schroeder, and other brand name filters. (Online cross reference and pricing information is available at www.cfpfilters.com)

MANN Filters and Air Oil Separators

Air filters for air and gas lines, compressors, construction and agricultural machinery, engines, vacuum lines, and vehicles. Liquid filters for EDM, alkaline solutions, coolants, cooling lubricants, fuels, hydraulic fluids, isocyanate, lube oils, paint, polyhydric alcohols, processing emulsions, etc. Air oil separators for constant compressed air quality. (Cross reference, price information, and online ordering is available at www.cfpfilters.com)

CFP Engineered Systems

Simplex or multiplex compressed air or vacuum pumping systems. Standard or custom systems to meet your specifications. Vacuum priming systems.

Sales Offices in Chicago • Milwaukee • Detroit • Indianapolis
Corporate Headquarters: 805 Oakwood Rd. • Lake Zurich, IL 60047
